We are having some exceedingly fine weather these days—bright, sunlight days and cool days.

Poultry Association
The Putnam County Poultry Association will meet in the office of O. K. Holladay Friday, Sept. 27, at 2 o'clock. We want every one in the county interested in poultry to be present. We will prepare plans, etc., for our coming show, to be held in Cookeville, November 6, 7, 8. So be sure and come.
A. G. MORGAN, President
J. W. GILLEM, Secretary

An I H C Manure Spreader Is an Investment— Not an Expense

A MACHINE that makes two dollars where one was made before is not an expense—it is a good investment.

Careful tests made at the Ohio Experiment Station showed an average increased crop yield of \$15 an acre when eight loads of manure were properly spread. Spreading with a fork, it would take at least sixteen loads to an acre to produce the same result. By fertilizing twice as much ground with the same quantity of manure and doing the work better, an I H C manure spreader soon pays for itself. Add to this saving an increase of \$15 an acre in the value of your crops, and you at once see why we urge the purchase of an

I H C Manure Spreader Kemp 20th Century, Corn King, or Cloverleaf

Ask the I H C local dealer to show you the self-aligning, removable boxes on the main axle; notice that the axles are roller bearing to reduce the draft; study the apron construction, and note the large rollers on which it runs. I H C spreaders can be used in any corner of the barnyard. There is no reach to interfere. The seat folds out of the way when filling the spreader.

If you appreciate machines of extra merit; machines that spread manure in ample range of quantities; machines which can be equipped with drilling attachments for use in market gardens, and above all, machines which are made in sizes convenient for every farm, investigate I H C spreaders. Go to the local I H C dealer and look carefully over the machines he shows you. Get catalogues and full information from him, or, write

International Harvester Company of America

(Incorporated)

Nashville

Tenn.

I H C Service Bureau

The purpose of this Bureau is to furnish, free of charge to all, the best information obtainable on better farming. If you have any worthy questions concerning soils, crops, land drainage, irrigation, fertilizers, etc., make your inquiries specific and send them to I H C Service Bureau, Harvester Building, Chicago, U.S.A.

STOP, THINK AND ACT

Insure Today; Tomorrow May be too Late

You owe it to yourself and dependent ones to investigate the company before you place your life insurance. The old and tried Mutual Benefit Life Insurance Co. of Newark, New Jersey, was organized in 1845, and stands preeminent today for being the largest purely annual dividend company in existence. It is and has always been a purely mutual and strictly a policy-holders' company, and has always been persistent and uncompromising in the defence of pure insurance. To condense it all into one sentence I will say: There is no other company in the world that so combines size, strength, liberality, cheapness of rates, and large annual dividends, and to better appreciate a Mutual Benefit contract is to compare it with the policies of other companies. Anyone who desires to take a policy in this great institution I will be delighted to go over the matter with, explain and answer all questions pertaining to our policies, or any other company's as well.
